Q1: Did you feel that the robot correctly understood what you said?

	Not at all	Not very often	Half the time	Most of the time	Nearly always
Finite state automaton	0	5	16	15	1
Factored statistical model	0	11	19	6	1
Rule-structured model	0	3	8	24	2

Q2: Did you feel that the robot reacted appropriately to your instructions?

	Not at all	Not very often	Half the time	Most of the time	Nearly always
Finite state automaton	0	1	15	15	6
Factored statistical model	0	4	19	12	2
Rule-structured model	0	1	9	21	6

Q3: Did you feel that the robot asked you to repeat or confirm your instructions ...

	Very often	Quite often	Occasionally	Rarely	Never
Finite state automaton	6	20	10	1	0
Factored statistical model	7	19	8	3	0
Rule-structured model	0	6	16	13	2

Q4: Did you feel that the robot sometimes ignored when you were speaking?

	Very often	Quite often	Occasionally	Rarely	Never
Finite state automaton	2	5	14	14	2
Factored statistical model	2	13	15	6	1
Rule-structured model	1	5	11	17	3

Q5: Did you feel that the robot sometimes thought you were talking when you were not?

	Very often	Quite often	Occasionally	Rarely	Never
Finite state automaton	4	6	6	12	9
Factored statistical model	1	10	12	11	3
Rule-structured model	0	2	2	12	21

Q6: Did you feel that the interaction with the robot flowed in a pleasant and natural manner?

	Not at all	Not very much	More or less	For the most part	Definitely
Finite state automaton	5	16	11	4	1
Factored statistical model	1	14	9	11	2
Rule-structured model	1	5	15	13	3

Finite state automaton   Factored statistical model   Rule-structured model
